

SASWAT BETTA APTAKAM

Data Analyst | SQL | Power BI | Snowflake | Databricks SQL

+91 9178258671 | saswatbetta.aptakam@gmail.com | [LinkedIn](#) | [GitHub](#) | Cuttack, Odisha, India

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience building end-to-end analytics solutions using SQL, Power BI, Snowflake, and Databricks SQL. Proven ability to process large datasets (10K–100K+ records), design star-schema data models, and deliver interactive dashboards tracking KPIs across HR, retail, healthcare, and e-commerce domains. Skilled in advanced SQL (CTEs, window functions, subqueries), ETL pipeline automation. Committed to translating raw data into clear, actionable business insights that drive operational decision-making.

TECHNICAL SKILLS

Languages: SQL (Advanced)

Microsoft Excel (advanced — Pivot Tables, VLOOKUP, XLOOKUP)

BI & Visualization: Power BI (Desktop & Service), Dashboard Development, Microsoft Excel (Pivot Tables, VLOOKUP, Power Query)

Cloud & Warehousing: Snowflake SQL, Databricks SQL (Fundamentals)

Data Engineering: ETL Pipelines, Data Cleaning, Data Modeling, Star Schema Design

Analytics: KPI Analysis, Statistical Analysis, A/B Testing Concepts, Business Requirements Gathering

Tools & Platforms: GitHub, Power BI Service, Databricks, Snowflake, SQL server, MS-Excel

PROJECTS

Employee HR Analytics | SQL · Databricks · Power BI | [GitHub](#)

- Analyzed 100K+ employee records to uncover attrition patterns, reducing analytical turnaround time by 30% through automated SQL pipelines
- Performed end-to-end data cleaning and transformation; built interactive Power BI dashboards tracking 10+ HR KPIs
- Delivered department-level insights on attrition rates and salary distribution, enabling data-driven workforce planning recommendations

Global Retail Sales Analytics | Databricks SQL · SQL | [GitHub](#)

- Processed 62K+ transactions and designed a Star Schema dimensional model, improving query performance by ~40%
- Analyzed revenue trends, profit margins, and customer retention metrics across 15+ product categories
- Built automated monthly reporting pipelines, reducing manual reporting effort by an estimated 5 hours/month

Healthcare Patient Analytics | Snowflake SQL · Power BI | [GitHub](#)

- Processed 10K+ patient records for hospital performance, billing analysis, and operational KPI tracking
- Built Power BI dashboards monitoring patient outcomes, bed utilization, and billing efficiency across 6 departments
- Identified cost optimization opportunities through data-driven insights, with projected savings of 8–12% in billing inefficiencies

Blinkit Quick Commerce Analytics | SQL · Databricks · Power BI | [GitHub](#)

- Analyzed 5K+ orders and ₹4.97M in revenue; built ETL pipelines processing raw order data into structured reporting tables
 - Developed KPI dashboards tracking delivery performance, order fulfillment rates, and customer satisfaction scores
-

- Provided actionable recommendations that improved order fulfillment efficiency by 15% based on delivery time analysis

KEY ACHIEVEMENTS

- Built 4 end-to-end analytics projects spanning HR, retail, healthcare, and e-commerce using Snowflake, Databricks SQL, Power BI, and Python
- Developed 10+ interactive dashboards for KPI reporting and business intelligence across diverse industry domains
- Performed ETL, data validation, and dimensional modeling on datasets ranging from 5K to 100K+ records
- Applied advanced SQL (Joins, CTEs, Window Functions, Subqueries) to solve complex analytical challenges
- Consistently delivered analytical reports and data stories that support business decision-making and operational insights

SELF-LEARNING & CONTINUOUS DEVELOPMENT

- SQL – Self-taught via practice projects, online resources, and 4 end-to-end real-world datasets
- Power BI – Independently learned dashboard development, DAX measures, and Power BI Service publishing
- Snowflake & Databricks SQL – Hands-on learning through free-tier cloud environments and project work
- Data Modeling & ETL – Learned Star Schema design and pipeline building through project-based practice

EDUCATION

Bachelor of Science (B.Sc.) — Bijupattnaik College of Science and Education, Utkal University | 2014 – 2017
